# design specification guide 2015

## Welcome...

For nearly thirty years, our skilled team has exceeded the expectations of clients through attention to detail and commitment to delivering the highest standards of quality manufacturing.

As one of the UK's leading makers of contemporary bed sashes and throws, quilted throwovers and fitted bedcovers, headboards, cushions and valances, and now quilted acoustic panels, we offer an unmatched level of expertise in translating the ideas of designers and their clients into reality.

You can rely on us to guide you through the design and fabric specification process, so that the items you order are made and despatched on time and on cost – from one to a thousand and beyond.

And you can always rest assured that the quality of our manufacturing is second to none.

We look forward to working with you on your next project.

All the team at Cliq designs.

# Ordering information

## MADE TO ORDER

We work with your fabric and to your specific measurements.

## STANDARD OR NON-STANDARD?

- The spec book gives you a standard specification for each product.
- It allows you to see suggested finished size for all standard beds, with fabric meterages based on 137cm wide fabric with 64cm pattern repeat.
- If that's simply what you require, it will be your invaluable guide to easy ordering.
- A number of add-on options are listed that you may wish to consider when placing your order, for example, our new Funktion range of FR polyester lining or alternative wadding weights.

Feel free to talk to us about individual specification design details and costs.

## HELP AT HAND

- Refer to the bedcover order measurements and check list form on page 4. This takes you through all the information we need to complete your order. You can either photocopy this and fill it in, or ensure we have all the details requested on your order.

## OVER TO US

- Send us your order with your company reference via post, email [sales@cliqdesigns.co.uk](mailto:sales@cliqdesigns.co.uk) or via fax. Where possible, please ensure we have a cutting of the fabric with reference to your order.

## EASY PICK-UP

- Fabric on the roll can be collected from your premises at a cost +VAT per parcel.

## DELIVERING THE GOODS

- All prices quoted exclude VAT and delivery.
- Delivery will be charged per headboard/parcel +VAT (UK delivery).
- Additional charges apply for headboards exceeding our standard heights.

## A note on fabric

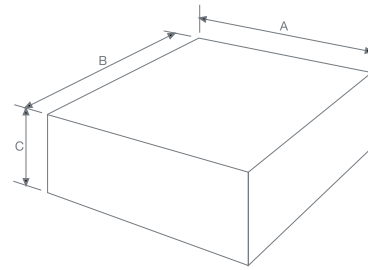

- We work with your fabric.
- We assume that fabric has been thoroughly checked by yourself or your supplier.
- Although we do our best to check for any faults in the fabric, we cannot accept responsibility if the goods are made up before this comes to light.
- All claims for damage or faults must be received in writing within 7 days of invoice, otherwise no liability can be accepted.
- Any subsequent alterations to orders that differ from your original spec may be subject to additional charges.

# Bed Throws: Order measurements and checklist

## MEASURING FOR CORRECT SIZE

Cliq offer a bespoke service on finished bedthrows.

We make to your measurements, so please check all details. Unless advised otherwise, standard finished sizes for the relevant bed size in this design specification guide will be used.
